STABILUS POWERISE®

Installation Instruction

Part Number: 408250

Audi Q5

Generation: 2017

OE-Numbers:

80A 827 851 B
80A 827 851 D
80A827851A
80A827851B

Note: Only authorized personnel should perform the installation. Always refer to the manufacturer's guidelines for specific instructions and safety precautions.
Step 1: Prepare the grommet

- Apply a drop of dish soap to facilitate plug movement

Step 2: Dismantle the car's panel

- Remove the panel to access the connector

- Disconnect the connector from the vehicle, noting the connectors' appereance may differ

Step 3: Remove the drives

- Support the tailgate/trunk lid while removing the drives one at a time
- Release the clip at the end fittings

Step 4: Install Stabilus Replacement Drives

- Install the Stabilus replacement drives

- Link the cables from the Stabilus drive to the counterpart connector

- Make sure you put the left hand drive on the left side and the right hand one on the right side

STABILUS POWERISE®

Installation Instruction

Part Number: 408250

Audi Q5

Generation: 2017

OE-Numbers:

80A 827 851 B
80A 827 851 D
80A827851A
80A827851B

Note: Only authorized personnel should perform the installation. Always refer to the manufacturer's guidelines for specific instructions and safety precautions.
Step 5: Insert the Grommet

- Ensure proper insertion of the grommet into the vehicle
- Use a drop of dish soap to ease installation

- Confirm the grommet length is correct

- Prevent contact of the grommet to the bodywork (excep for cable routing) or placing the grommet under tension during this process

- If necessary, readjust

Step 6: Set up control unit

After reassembling the panel:
- Close tailgate manually, until lock is engaged
- Open and close the hatch automatically (learning run)

Caution: Be mindful of the Push-To-Run function in some electric tailgate systems; moving the tailgate too quickly during setup can cause complications.

Step 7: Set Desired Hatch Position

- Manually open the hatch to the desired position
- Program the drive accordingly by pressing and holding the closing button on the hatch until a signal is received.
- Make sure the tailgate only opens to the programmed position now, by closing and opening the tailgate automatically again
